PROFILE

Senior Product Designer with 12+ years of experience, from Discovery to Delivery. I design iOS/Android applications, complex B2B SaaS products and Design Systems, with a practice rooted in user research, accessibility and close Product / Engineering collaboration. My approach now extends to AI-assisted functional prototyping and no-code product building.

KEY HIGHLIGHTS

25% → 99%
Mobile accessibility compliance improved on a logistics mission.

+1 million
Downloads for the Norauto mobile application.

22 languages · 70,000+
Employees impacted by the Decathlon Sportface rollout.

WHAT I DO

Product & Discovery
Framing, workshops, user journeys, testing, A/B testing, user stories, backlog and close collaboration with PM/PO and engineering.

UX/UI & Design Systems
Figma, web & mobile UI, components, variables, tokens, governance, accessibility (WCAG) and prototyping.

Product Building & AI
Claude, ChatGPT, Lovable, Figma AI, Supabase, Airtable, WordPress, Webflow, SQL basics and JSON data.

PROFESSIONAL EXPERIENCE

SQUAD — Senior Product Designer · Mobile & B2B SaaS
August 2022 – Present
Assignment for a confidential logistics client.

- Design and evolution of iOS/Android mobile applications and business SaaS platforms, from user research to delivery.
- Design and governance of separate Mobile and Web Design Systems: components, variables, tokens, documentation and engineering collaboration.
- Mobile accessibility compliance improved from around 25% to 99%; roughly 50% growth in mobile app users.
- Redesign of complex journeys and contribution to the convergence of two legacy tools into one unified SaaS product.

Professional experience · continued

SOFTEAM / DOCAPOSTE — Product Designer · B2B SaaS

February 2020 – August 2022

- Discovery, expert workflows, wireframes, prototypes and UI for business tools in legal, healthcare and geospatial/LiDAR contexts.
- Workshops, functional framing, stakeholder coordination and evolution of Figma component libraries, including accessibility considerations.

FREELANCE ACTIVITY — Product Designer · Mobile, SaaS & Web

October 2015 – August 2022

Activity carried out alongside salaried positions.

- Framing, UX/UI, design and delivery of showcase sites, e-commerce and digital products: WordPress, responsive design, prototyping and client follow-up.
- UX/UI training and Figma workshops; voluntary contribution to the Irrésistibles Français community website (3,000+ members).

ALTEN — UX/UI Designer & Product Owner

October 2018 – December 2019

- Needs gathering, workshops, user journeys, web/mobile interfaces, user stories, backlog prioritization and functional testing.
- Design of internal platforms, business mobile applications and interactive kiosks; coordination across business and technical teams.

WAZAPP — UX/UI Designer & Functional Project Manager

October 2013 – August 2018

- Designed and delivered 30+ applications, mainly iOS/Android: framing, prototyping, specifications, development follow-up and release.
- Norauto: mobile app surpassed 1 million downloads; Decathlon Sportface: deployed in 22 languages for 70,000+ employees.
- Projects for AXA, GL Events and other major accounts; team coordination in France and internationally.

EDUCATION & CERTIFICATIONS

2026 No-Code & AI Product Builder, RNCP qualification (Liora); Prompt Engineering (Liora).

2015–2017 Master's degree in Web & Digital Project Management, EFFICOM Lille.

2014–2015 Bachelor's degree in Web Design & Integration, EFFICOM Lille.

Additional training and certifications: Google UX Design, Agile/Scrum, accessibility and Atomic Design.

LANGUAGES & MOBILITY

Native French · Professional English · Intermediate Spanish

Remote across France / Europe; open to mobility depending on the project.
